
Selling Alto guitar by Bolin

Posted by rolfnilsaxel - 2017/02/18 21:06

I am selling an 11-string alto guitar built by Georg Bolin in 1977. The guitar comes with its original case. The guitar has some marks in the varnish on the top, but there are no cracks in the wood. It sounds great and I think it was built in the best period of Georg Bolins career.

Price is 25.000 SEK or 2.500 euro. The guitar can be tested in Malmö in South of Sweden. I can ship the guitar if the buyer pays for the freight.
