
New 11-stringed Alto guitar

Posted by Jansson - 2018/03/16 19:16

Just checking if there is any interest in trying/buying a new alto guitar. I built it for myself (finished four weeks ago), but of course it is impossible to learn how to play so I thought I should stick to the making of them. It is located in Stockholm. I tried to upload some pics but after 45 minutes I got angry and gave up. I will e-mail pictures on request...

Sorry.

/Henrik
