## 11th bass-string not long enough

Posted by EinarF - 2017/11/14 18:01

---

I used the bass-string-set from Hannabach, but now it seem to be out of sale. Then I tried to use the 6th string from Luthier as the 11th string, but it was not long enough. What kind of string can I use?

D'Addario Pro-Art strings are long enough. J43, J45, J46.

I have never used Hannabach basses, but I will bet that you can still find them at Strings by Mail. Check out this link

I'm not trying to hijack this thread, but can someone tell me where I might get strings long enough to fit a Dresden guitar?

update: after researching, I have come with this:

string 1 - tuned to f - d'addario ej43 0275  
string 2 - tuned to d - d'addario ej 44 29  
string 3 - tuned to a - d'addario ej 43 397  
string 4 - tuned to f - d'addario nylo26w  
string 5 - tuned to d - d'addario ej 43 028w  
string 6 - tuned to a - d'addario nylo034w  
string 7 - tuned to g - d'addario nylo036w  
string 8 - tuned to f - d'addario nylo040w  
string 9 - tuned to e - d'addario nylo043w  
string10 - tuned to d - d'addario nylo048w  
string11 - tuned to c - la bella ws040  
string12 - tuned to b - la bella ws044  
string13 - tuned to a - la bella ws048
